## EXPERIENCE

### National Informatics Center, Trivandrum — *Java Developer*

**04/2022 - PRESENT ( 2 + year )**

Achievements / Tasks

- Developed backend services using Spring Boot Framework and Front End using HTML 5 and Thymeleaf.
- Resolved 100+ critical bugs in the product to improve performance .
- Engineered 30+ landing pages in HTML5 and CSS to support mobile and desktop environments.
- Incorporated Jasper Reports into the project, enabling the generation of multiple PDF reports with ease and efficiency.
- Effectively incorporated different maps into projects using OpenLayers, leveraging Geographic Information System (GIS) technology to enhance project functionality and provide engaging geospatial data visualization .

### Inovace Digital Media,Technopark Phase-1 Trivandrum — *Project Intern*

**08/ 2021 - 11/ 2021**

Achievements / Tasks

- Actively contributed to the development and implementation of software projects during my internship.
- Strengthened my skills in web application development, utilizing technologies such as HTML, CSS, and JavaScript to create user-friendly interfaces and interactive features.
- Demonstrated strong communication skills, effectively collaborating with cross-functional teams to achieve project milestones and deliverables.

## EDUCATION

### Chmm College for Advanced Studies, Trivandrum — *Master of computer Application*

 ( CGPA- 7.5 )

## SKILLS

Front End Technology-
- > Javascript
- > Jquery
- > HTML5
- > CCS3

Development Languages
- > Java
- > JavaScript
- > Go Lang

Databases
- > MySql
- > PostgresSql
- > Mongo Db

Reporting Tools
- > Jasper Reporting

Soft Skills
- > Team work
- > Time Management
- > Adaptability

## LANGUAGES

- English
- Hindi
- Malayalm

**Chmm College for Advanced Studies,** Trivandrum —
*Bachelor of Science in Electronics*

( CGPA- 6.5 )

### Re-Survey Management Information System (RMIS )

The project primarily focused on conducting a digital re-survey of the entire Kerala state. Through this initiative, we successfully streamlined the survey process, enabling officials to effectively manage the data.Additonaly RMIS is integrated with Entebhoomi portal for public related services

### EnteBhoomi Portal

The Entebhoomi portal is a public platform designed to address and manage complaints related to land-related issues. It offers various services to the public, allowing them to report and resolve grievances pertaining to their lands.

### Bhunaksha

As a collaborative team member ,I actively contributed to development of bhunaksha ,a dynamic mapping platform designed to streamline land processes with in the team i played an integral role in implementing key features such as capability to split an allocate land ,Contributing to the overall success of the project .Bhunaksha stands as a testament to my ability to work effectively within a team,leveraging collective strengthsto deliver a comprehensive solution for users engaged in land-related activites.

### Praveshika

A single sign-on system for accessing various e-governance services streamlines the user experience by allowing citizens to securely authenticate themselves once and seamlessly access multiple government services without the hassle of repeated logins.

### Integrated Land Information Management System ( ILIMS)

Our Integrated Land Information Management System streamlines land transactions by offering services like land transfer, registration, pre-mutation sketches, tax payment, and fair value determination through a single portal. This increases efficiency, transparency, and security while protecting land records with modern technology, reducing the need for visits to multiple offices.
